Good morning (b) (6)

I was not able to reach you on your phones listed in your signature line. I sent a text message to your Pomona cell phone just in case you don't receive this email until later today. The ACF Secretary is requesting a meeting today to discuss the increased capacity needs at the Pomona site. Please notify your team and management accordingly in order to confirm everyone's availability to attend this urgent meeting at 3pm Eastern Time today.

I will forward the meeting invite once the information becomes available.

We appreciate your flexibility and communication during this time.

Thanks,

Cc: (b) (6) @acf.hhs.gov>; (b) (6)
(b) (6) @acf.hhs.gov>; (b) (6) @cherokee-federal.com>
Subject: [EXTERNAL] ORR UC Operations - Request for Information for Contract # 75ACF121C00062 (Increased Capacity/COVID)
Importance: High

Good morning (b) (6)

ORR is requesting information for planning purposes related to a potential increase in capacity and CNMC's COVID processes. The items to be addressed are shown below.

What are the options available to expand capacity above (b) (4) ORR anticipates the capacity would increase by an additional (b) (4) UC in increments of (b) (4)

Hard-sided options?

i. Additional structures
ii. Bunk beds

Soft-sided options?

i. Single cots
ii. Bunk beds

For any bunk beds please confirm whether or not you are able to achieve the following requirements. **A yes or no response is required for each line.**

(a) A bunk bed must only consist of double-deck beds.
(b) A child who is under six years old, non-ambulatory, or subject to seizures or other medical or physical problems who may require greater caregiver supervision and caregiver access must not use a top bunk bed.
(c) A bunk bed must allow enough space in between beds and the ceiling to allow a child to sit up in bed.
(d) A bunk bed must be equipped with a securely attached ladder capable of supporting the child using the bed and an employee.
(e) A bunk bed that is more than 30 inches above the floor must be equipped with securely attached safety bedrails along the lengths of the bed on each side with a means to allow a child to get in and out of bed. Bunk beds securely attached to a wall may use the wall as one of the required guardrails. The top of safety guardrails must be at least five inches above the top of the mattress. The bed rails and the mattress supports under the mattress must not be an entrapment hazard.

(f) Openings in guardrails or between ladder rungs must not have openings that can entrap a child's body or body part that has penetrated the opening. Openings must measure less than 3 1/2 inches or more than nine inches to prevent a child's body or body part from being entrapped.

What are the bed increments that additional capacity would be expanded by? For instance, at Bliss we can increase in 500 bed increments – what are the increments for Pomona? How long does it take to staff up once ORR activates (funding modification is executed)?

Based on the updated contract, what are the cost estimates for the expanded capacity increments? When we activate this, what is the minimum commitment? Would this align with the contract or be 30/31 days?

What is the current status of your COVID quarantine and isolation space? Specifically, when do you estimate you'll run out of COVID space?

Are you able to quickly increase COVID space if needed?

If yes, what steps do you plan to take?

If no, what are the barriers? (e.g., financial, spatial?)

What specifically would you need to do at your site to adequately respond to higher infection rates? (e.g., do you need more tents or trailers? Do you need to repurpose existing dorms or tents? Etc.)

How much do you estimate it cost?

What specifically would you need from Artemis/ORR in order to implement?

What are the available options to provide recreational (activity) space at the site.

The due date and time for this response is Friday, July 5, 2021 at 12 pm Eastern Time.

Please let me know if you have any questions or clarification.

Thank you,
